

Creativity Abounds - Glassmaking

Monday, July 21, 1:00PM-4:00PM

(Children must be at least twelve years of age)

\$85 US per person

Before iron or steel, glass was the most important item made in Pittsburgh. Tour one of the country's premier glass studios. The tour includes a guided exploration of a contemporary glass gallery, plus a dynamic narrated glassblowing and/or flame working demonstration.

Experienced artists will lead the group through a hands-on, glass-making experience. You will roll up your sleeves and go right to the torch, furnace or fusing studio to create your own glass art. Everyone in the group will have an opportunity to "try out" glass making.
