

**POWER & ENERGY SOCIETY
INDUSTRIAL APPLICATIONS SOCIETY
Life Members' Affinity Group
NEW YORK & LONG ISLAND CHAPTER**

You are invited to a joint meeting of the NY Section PES - IAS Joint Chapter and LMAg on:

**KEY CHANGES TO THE INTERNATIONAL BUILDING CODE
2009 EDITION.**

Tuesday, February 28th, 2012, 5:00PM to 7:00PM

This presentation will attempt to answer the following questions:

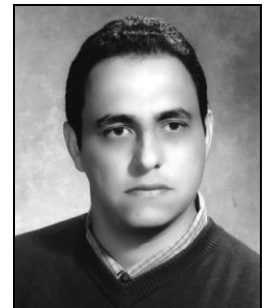

- How this New Edition impact Construction and Means of Egress?
- What are the implications for High Rise Buildings?
- What is required for exit and elevator hoistways enclosures?
- What we can do to control smoke removal?
- Can elevators be used for evacuation?

THE SPEAKERS: Timothy R. Costello, P.E. and Ernesto Vega Janica, SET

Tim is the Operations Manager with the New York Office of Rolf Jensen & Associates, Inc. (RJA). He has an extensive background in the analysis of New York City, New York State, New Jersey, Connecticut and the International Building and Fire Codes. He served on the New York City Model Code Program's Fire Protection Technical Committee as the Standpipe Systems Sub-committee Chairman. Mr. Costello has provided numerous seminars on fire protection and life safety topics for building owners and managers. He has been involved with the Building Owners and Managers Association (BOMA) of New York and the Fire Safety Directors Association.

Tim received his Bachelor's degree in Fire Protection Engineering from the University of Maryland in 1997.

Ernesto is a Senior Consultant with RJA in the New York City office. He works with clients and authorities having jurisdiction to engineer solutions for fire protection and life safety issues. He has been invited by the NFPA and the SFPE for presentations on performance based design. Ernesto received his Bachelor's in Electrical Engineering in 2000 and his Master in Project Management in 2001; then relocates to the US and received his Master's degree in Fire Protection Engineering from the University of Maryland in 2011.
