

Celebrating 125 Years
of Engineering the Future

Sister Section Agreement
Between
IEEE Princeton/Central Jersey (USA) and IEEE Bangalore (India) Sections
September 19, 2008, Quebec City, Quebec, Canada

1. Princeton/Central Jersey and Bangalore Sections by mutual consent have entered into a long term, voluntary relationship for the purpose of exchanging ideas and experiences on how to benefit from each other's operations.
2. This initial agreement is for a five-year term and does not imply any financial or legal relationship. It can be renewed further on mutual consent. This is one of the IEEE pilot projects meant for the benefit of members of each respective section. It will take effect on September 19, 2008.
3. The desire and basis for a Sister Section Agreement between two sections has been approved by the Section Executive Committees of the two Sections and is submitted here for the approval by Directors of Region 1 (Dr. Howard Michel) and Region 10 (Dr. Janina Mazierska). This interface between sister sections shall be primarily by email, and may involve communications between officers with similar responsibilities.
4. Initial activities will be established by the prime contacts of Princeton/Central Jersey Section (Mr. Ashutosh Dutta, 2008 chair) and Bangalore Section (Mr. Ramakrishna Kappagantu, 2008 chair). As interest develops in a particular area, other officers may communicate directly as sub committee, reporting a summary topic, to the primary contacts. The prime contacts plan to submit a summary report on their activities/progress to their respective Regional Directors every six months.

Respectfully submitted to respective IEEE Regional Directors for their approval.

Ashutosh Dutta

Chair, IEEE Princeton/Central Jersey Section
Email: ashutosh.dutta@ieee.org

Ramakrishna Kappagantu

Chair, IEEE Bangalore Section
Email: kramakrishna@ieee.org
