## About IEEE

Institute of Electrical and Electronics Engineers, (IEEE) is the world's largest professional association for the advancement of technology. The IEEE formed in 1963 with the merger of the AIEE and the IRE.

The IEEE has

- **advanced** the theory and application of electro technology and allied sciences;
- **served as a catalyst** for technological innovation;
- **supported the needs of its members** through a wide variety of programs and services.

IEEE Women In Engineering (IEEE-WIE) is the affinity group of women and men associated with IEEE. Mission of WIE is to inspire, engage, encourage and empower IEEE women worldwide.

### The Workshop:

IEEE is a reputed International body, which is active in conducting many technical as well as social events for the welfare of the society, under the title of “**Community Development** “. As the members of IEEE; we strive to enhance the knowledge of the young students from various schools/colleges.

This one-day workshop is organized for the students of schools and Jr. College from **rural area (Otur)**. Under this programme, the various demonstrations, sessions, competitions have been organised.

### Objectives:

- To bring the awareness about the importance of **Electrical & Electronics Engineering** & its use in Society amongst people from **rural area**.
- This activity will help to enhance the **new IEEE memberships from rural area**.
- Develop and increase the confidence level of the students from the **rural area**.
- To understand the advantages of group dynamics
- To motivate self thinking

- To Create awareness about making use of naturally available non-conventional energy sources in **rural area for power generation** and its benefits & also about the **energy conservation** understand the importance & benefits of **latest communication techniques** & gadgets such as mobile phones & Internet.
- To be **familiar with IEEE community**
