About IEEE

The Institute of Electrical and Electronics Engineers (IEEE), the world's largest technical society, is a non-profit professional association of more than 350,000 individual members in 150 countries. Through its members, the IEEE is a leading authority in technical areas ranging from computer engineering, biomedical technology and telecommunications, to electric power, aerospace and consumer electronics, among others.

IEEE Kerala section has about 1200 members including 900 student members and has been organizing National/International conferences on emerging technologies for the last 27 years.

All India Student Congress 2002

The IEEE student members are the leaders of tomorrow. As a student member is associated to a particular student branch, the student members are able to access the world's most comprehensive source of electrical, electronic and computer engineering publications. Student members also benefit by networking with the members and the industry leaders, gaining leadership experience and developing interpersonal skills by getting involved in the local and section activities.

In order to consummate the IEEE's goals, it is a necessity for the sections to share the ideas and best practices among themselves thus improving the functioning of their respective student branches.

Keeping this in view the IEEE Kerala Section has decided to host the third All India Student Congress (AISC) for the year 2002.

The AISC 2002 activities shall constitute of a *Student Paper Contest*, *Technical Quiz*, *Talks on Management Topic*, a *Career Orientation Program including an aptitude test*, besides *training on various aspects of the IEEE functioning*, *report presentations*, *knowledge/idea sharing sessions etc.*

It has been proposed to bring out a *Souvenir* on this occasion, which will contain all useful information regarding the operation of a student branch. There are also plans to conduct an exhibition where India's leading tech-companies are expected to participate.

Paper Presentation Contest

Papers on contemporary topics are invited from student members for presentation at the AISC 2002. All selected papers will be offered exciting prizes.

Authors should be IEEE student members and not more than two authors can author a single paper. Papers should reach the Secretary, AISC 2002 Organising Committee before 31 May, 2002.

Please visit www.ewh.ieee.org/r10/kerala for more details on the paper presentation contest.

Conference on Knowledge Management (K-ware 2002)

The AISC 2002 will be preceded by a one day Seminar on **Knowledge Management** which has been scheduled for 25th July 2002 at Hotel Residency Tower, Trivandrum.

Knowledge Management is the conceptualizing of an organization as an integrated knowledge system, and the management of the organization for effective use of that knowledge.

You may register separately for the Seminar, where eminent speakers who have hands-on experience will deliberate on the Knowledge Management paradigm, the implementation mechanisms and the challenges involved. For more details on the conference visit www.ewh.ieee.org/r10/kerala
