

**IEEE DIGITAL SECURITY SEMINAR**  
**SEPT 25, 2009**  
**ITC GRAND CENTRAL, BOMBAY**

As part of its continuing celebrations of the IEEE's 125<sup>th</sup> year, Bombay Section organized a one day seminar on Digital Security on September 25, 2009 at the prestigious ITC Grand Central, Parel. About 50 invitees from academia and industry participated.

Mr R Muralidharan, past Chair of India Council and Bombay Section made a comprehensive presentation on the IEEE and its relevance. Prof Venugopal Iyengar then sketched the canvas of digital security and highlighted current challenges.

Mr Sanjay Pandey, Indian Police Service, former head of Cyber Crime Cell and present CEO of niche IT security firm i-Sec, compared security features of ipv.4 versus ipv.6. Mr Behram Sethna, VP Tata Consultancy Services (TCS), using video clips, graphically described digital security applications. Mr Ajit Shelat of Nevis Networks gave a presentation on network security together with an on site demo of his own proprietary hardware.

Dr Sundeep Oberoi, Global Head Niche Technologies - TCS explained the intricacies of accountability and related issues in IT security. Mr Sanjeev Hirlekar, Tech Mahindra offered a practitioner's view of security event management for company networks.

Dr Oberoi summarized the days proceedings and expertly fielded the Q&A session.

IEEE Bombay Section sponsored the event. Mr Raju Hira, Section Chair, was present to introduce the proceedings. Technical guidance was from Dr M V Pitke, Mr Kirit Sheth and Mr R Muralidharan. Ground support came from Mr A K Banerjee along with Mr Ashok Jagatia and Mr Anthony Lobo. Student volunteers from Sardar Patel college took charge of logistics at the event.
