

IEEE LAHORE SECTION STUDENT CONGRESS- 2010

“IEEE – NURTURING GLOBAL CAMARADERIE”

THE CONGRESS' AIM

The IEEE-GCUL Student Branch received the privilege to host the **very first Section Student Congress of the Lahore Section**, which spanned three days from 5th to 7th January, 2010. Being the first Congress of the Lahore Section, its main focus was on the role and significance of IEEE in students' professional and community lives, which the GCUL team has always strongly felt and experienced.

One goal to achieve through this Congress was to encourage and help create strong links among branches and their individual members. The other goal was to provide an opportunity for highlighting creativity and intelligence.

The Congress meant to prove significant in bringing to light the level of professionalism and spirit that prevails in the IEEE-Lahore Section, and bringing all the Student Branches at the same platform so as to remove any delusion regarding the working, professionalism and devotion of the Branches of the Section. It also revitalized and strengthened the links between these Student Branches and their members.

The Results and Achievement of the first IEEE Lahore Section Student Congress:

The IEEE Lahore Section Student Congress 2010 proved really successful, thanks to the competence, cooperation and interest of the participants, coupling with the IEEE GCUL team's efforts. It helped bring closer the branches of the Lahore Section and encourage them to exchange expertise, talent and creativity among each other. At the end of the Congress most of the participants were appreciative of the ideas behind each of the variety of events. It also successfully provided a broad platform for highlighting and showing talent and grooming confidence among the participants. It also helped in creating strong personal links between people, which was the main concept of the Congress theme, promoting strong community linking.
