

## **IEEE Robotics and Automation New Zealand Chapter**

The IEEE Robotics and Automation New Zealand Chapter was formed on 28 December 2008. The Chapter covers all three IEEE Sections in New Zealand, namely IEEE NZ North Section, IEEE NZ Central Section, and IEEE NZ South Section. The Chapter is hosted by IEEE New Zealand South Section. The primary objective of the Chapter is to better engage with the parent organisation in terms of robotics, mechatronics, automation, control and instrumentation activities (such as Distinguished Lectures), and foster interactions / exchanges / collaborations among our members. The chapter collaborates closely with professional societies and industrial communities to promote robotics and automation professional activities including organising seminars and conferences.
