**Register Today!**

Held at the Prince  
Conference  
Center at Calvin  
College in Grand  
Rapids, Michigan

## Compete Globally, Act Locally

Join us for the Great Lakes Software Excellence conference in Grand Rapids, Michigan on October 25-26.

The conference promises world-class keynotes, hands-on tutorials, and practical presentations that address real issues in software development. Developers, business analysts, testers, QA engineers, and development and project managers will find an opportunity to learn, grow, and network with other professionals at an affordable price.

The conference will consist of a day of tutorials (Oct 25) followed by a day of presentations (Oct 26). Tutorials are organized into two tracks, Analysis and Development. Presentations are organized in three tracks as follows:

- Management/Analysis/Process
- Development
- QA/Testing

Tutorials, keynotes, and track presenters will address practical ways to improve information technology projects through software craftsmanship.
