### TOPIC & SPEAKER

The SmartGrid and You by Paul Olivier

### ABSTRACT

SmartGrid is a term widely used in the public media, but not widely understood. Find out why the term SmartGrid is hard to define, what Entergy is doing in the SmartGrid arena, and what it means to you as an engineer and as a utility customer.

### BIOGRAPHY

Paul Olivier is currently the Director of AMI/SmartGrid for Entergy's Integrated Energy Management group. He started with Entergy in 1984 and has held several positions focused on improving customer service and protecting shareholder value:

- Engineer, Transmission Line Design and Transmission Planning
- Manager, Transmission Service Billing, Transmission Project Development, Transmission Line Design, Transmission Line Reliability and Transmission Policy

He has a BSEE degree from the University of New Orleans, a law degree from Loyola University, and an Executive MBA degree from Tulane University.

### LUNCH SPONSOR

Power Reps. INC., Jeff Jacquin [jeffj@powerreps.com](mailto:jeffj@powerreps.com)
