

ResponseCard® RF

Updated: 06-16-09

ResponseCard® Radio Frequency (RF) keypad is optimized for small, medium and large presentation environments. Taking advantage of the latest technology advancements, the ResponseCard RF keypad provides features and functionality required to ensure audience response transmissions are accurate, timely and effortlessly transmitted to the presenter's receiver.

ResponseCard RF keypads and receiver fit into a light weight, custom carry case. Compact size and light weight design ensure ease of system transportation - whether from room to room or around the globe. At 1.0 oz in total weight, including batteries, shipping costs are sure to be minimized. The result is optimized portability.

Specifications

Enclosure:

- Lightweight, compact, grey "credit card" format.
- Dimensions: 3.3" L x 2.1" W x 0.3" H.
- Weight: 1.0 oz (with batteries).
- Durable, rugged case ensures maximum longevity under extreme conditions.

User Input:

- 12 key (1(A) - 10(J), Ch/Channel, ?).
- Answer Key - answer transmitted automatically.
- Programmable - manually enter ID number other than factory default. Use ResponseCard Programmer to easily change and verify ID.

Display:

- Participants receive answer confirmation on their ResponseCard through two-way communication. Successful transmissions are acknowledged on the participant's keypad via three second green light signal.

Power & Power Management:

- Powered by two coin cell CR2032 (3.0V) Lithium Batteries.
- Always in deep sleep mode - only uses power when a button is pressed.
- Average battery life is 6 to 12 months.

User Identification:

- Select a channel in less than 5 seconds, indicating session choice.
- Select a channel anytime - even when a session is underway.
- Channel selection is stored in nonvolatile memory.
- Channel selection is preserved until changed by participant.

RF Technology:

- Available Channels: Up to 82 sessions can be running at one time in close proximity without interference.
- Fully FCC, CE and Industry Canada certified.
- Will not interfere with other technologies.

Range:

- 200 ft range (400 ft coverage).

Receiver:

- Dimensions: 1.1" W x 3.7" L x 0.4" H.
- Unit Weight: 1.0 oz.
- Recommended 1000 RF keypads per one receiver.
