PESC08

39th Power Electronics Specialists
Conference

June 15-19, 2008

Island of Rhodes, Greece

PESC is an annual international conference providing a forum for research results, which advance fundamentals and principles of power electronics technologies. PESC includes: technical sessions, tutorials, and informal discussion sessions. Topics cover design, control, analysis, modeling, and simulation of power electronics systems, power converters, motor drive systems, power semiconductor devices and technologies, magnetic devices and materials, energy storage systems, emerging power electronic topologies, and all other aspects of the field. A highlight of this conference would be specially planned sessions showcasing state-of-the-art industrial applications including energy efficiency technologies.

The IEEE Power Electronics Specialist Conference for the year 2008 will take place in the island of Rhodes in Greece and will be co-sponsored by the National Technical University of Athens chaired by Dr. Stefanos Manias and Dr Vassilios Agelidis.

The island of Rhodes is considered to be one of the most popular summer resorts of Europe. Rhodes is gifted with unprecedented natural beauty, blessed with innumerable archaeological sites of unique value and pulsing with numerous non-identical settlements. The island of Rhodes is situated at the cross roads of two major sea routes of the Mediterranean between the Aegean Sea and the coast of the Middle East. The meeting point of three continents, it has known many civilizations.
