TENCON is an annual international technical conference of IEEE Region 10, the Asia Pacific Region, which comprises of 56 Sections, 5 Councils, 8 Sub-sections, 334 Chapters and 491 Student Branches. Held annually since 1980, TENCON provides an important forum for researchers and engineers from the industries, and professors as well as graduate students from the academia to network and to discuss new ideas and developments in the converging technology of electrical and electronics engineering, computer science and related topics.

The prospective authors are invited to submit their papers in standard IEEE proceedings format as instructed in the on-line Paper Submission column. TENCON 2011 topics include but are not limited to:

Computational Intelligence, Evolutionary Computing, Fuzzy Logic
Computing Architectures and Systems, Parallel Processor Architectures ,
Software and Database Systems Mobile and Embedded System Software
Signal Processing, Bio imaging Processing, Image and Video Coding,
Telecommunications, Wireless Communications, Traffic Control, Network Security
Circuits and Systems, Systems on Chip, Optoelectronic Circuits
Microelectronics and MEMS, Nanotechnology, RFID application.
Power and Energy, Power Electronics, Renewable Energy Sources and Technology
Robotics Controls and Autonomous Navigation, Perception, action and cognition
Controls and Systems, Distributed and Networked Control, system architecture

Special sessions and tutorial sessions are also solicited on the above topics.

Paper Submission : A final manuscript of not more than 5 pages including abstracts, figures, tables and references with A4 sized page, single spaced, Times Roman of font size 10, two columns format. Paper must be submitted electronically using the IEEE Xplore-compatible PDF via the website. All papers will be peer reviewed.
