

IEEE Eastern Ontario Student Papers Competition - March 29, 2007

IEEE Eastern Ontario Student Papers Competition

Date Wednesday, March 29th, 2007

Time

6:00pm	Arrival, Registration, Refreshments & Mingling
6:35pm	Outline of Evening & Introduction of Judges
7:00pm	Student presentations begin
8:30pm	Announcement of Winners & Awards
8:50pm	Brief tour of Algonquin's School of Advanced Technology labs
9:15pm	Goodbyes

Place Algonquin College, Technology (T) Building, Rm-T119
1385 Woodroffe Avenue, Ottawa Ontario
Parking in lots 8 & 9

Details

Presentations

- 15 minutes long (no more)
- 5 minute question period
- Topics concerning Electrical/Computer/Software Engineering, and Computer Science
- A/V facility allowed (Overhead projector, Laptop and LCD Data/Video projector, and Laser Pointer will be supplied)
- Rules from last years to be used (included)

Event

- @ Algonquin College
- Refreshments will be served before event (hearty sandwiches, veggie dip, juice, pop, bottled water, coffee and tea ☺)

Judging

- Judged by four judges from industry and university
- Judging criteria from last years to be used (included)

Prizes

- \$240, \$180, \$120 and \$60

Any questions and/or concerns – Dr. Wahab Almuhtadi – almuhtadi@ieee.org

Assessment guidelines

Project Title: _____

Competitor: _____

Description of Criteria	Weight (%)	Mark
1. <u>Analysis:</u> Objectives of the presentation. Were they appropriate? Were they clearly stated? Were they met?	25%	
2. <u>Presentation:</u> Delivery, audibility, conviction. Did the visual aids help the audience understand the topic? Was the information rate appropriate? The structure of the talk.	25%	
3. <u>Question Period.</u>	5%	
4. <u>Topic:</u> Technical content. Originality. Is this the speaker's own project and what is it's technical standard, in relation to standing of student?	15%	
5. <u>General Impression.</u>	30%	
Total		

N.B.: These guidelines are based on the assumption that the presentations are aimed at the contestants' peers.

IEEE Eastern Ontario Student Papers Competition - March 29, 2007

Rules & Guidelines

1. The competition is open to students of universities and technical colleges in the Ottawa and Kingston areas, who have not completed the final academic year of their undergraduate program.
 2. The work will be judged on a presentation, with conventional visual aids given to an audience of the speaker's peers. (All members of the IEEE and their guests are also invited.)
 3. The duration of the talk is not to exceed 15 minutes. (There will also be a question period of approximately 5 minutes.)
 4. The presentations will be judged by a panel of 3 to 5 respected members of the Electrical Engineering profession, who will present their findings shortly after the conclusion of the final presentation. (Judging will be based first on presentation, then on content and originality.)
 5. The speaker should present his/her own work. This can include the work of a team of which the speaker is a member, or a subject the speaker has researched for himself/herself. Although it is assumed that the speaker will receive help from teachers and fellow students, the speaker should design the presentation for himself/herself. The speaker may use professional help in preparing visual presentations, but this must be declared to the judges.
 6. Demonstrations, where used, should be prepared by the speaker. Help from others must be acknowledged.
 7. The papers are limited to electrical, computer and electronics engineering topics.
