Emeritus Registration

IEEE-Holm Policy

The Steering Committee has approved at its policy meeting in September 2006 that a complimentary registration be available to emeritus members of the IEEE-Holm organization who have received either the Holm Scientific Achievement Award or the Armington Recognition Award. To qualify, the person must be over 60 years of age and have retired from permanent employment. Part time employment which does not qualify for registration support from your company or organization is permissible. Part time employment is defined here as less than 1000 hours per year of paid wages.

The person wishing the complimentary registration must fill out this form every year and submit it to the Holm registration office no later than the advanced registration date. A committee will review all applicants and notify you of your status.
