IEEE-RITA on-going report

<http://webs.uvigo.es/cese/RITA/en/>

This report presents an update of the IEEE-RITA electronic journal developed since June 2009 to October 2009.

Issue 7 (Volume 4 Number 2) was delivered on May 2009, having 11 papers, and the Editorial was written by our President of the EdSoc, Susan Lord. This journal was composed with regular papers (6) and specially selected from the IEEE ICALT 2008 conference (5).

And issue 8 (Volume 4 Number 3) was delivered on August 2009, having 10 papers. This journal was composed with regular papers (7) and specially selected from the CITA 2009 conference (3).

There was published at the August issue of the Transaction on Education a summary of the articles published in the February and May 2009 numbers of IEEE-RITA, being expected to publish in the November issue the August 2009 IEEE-RITA contents.

A new volume of the Special CD-ROM number in the Transactions on Education will be scheduled for the 2010 February issue including all the publications since 2006 to 2009 (9 numbers, including the November 2009 IEEE-RIAT number).

Actions to distribute the IEEE-RITA articles through IEEE Xplorer and have a DOI for each one continue their course. And is proposed to this AdCom to have a formal acceptance of IEEE-RITA to follow the requirements of IEEE to consider the journal eligible for them.

Now the journal is indexed by the DBLP and Ulrich indexes, and we are thinking about to have a second ISSN number (Spanish one) as we are trying to index IEEE_RITA in the Latin Index (major indexing system in Latin American journal) but we cannot obtain this as we have a USA ISSN number. In the future we hope to have a JCR indexing.

According to internal statistics, the index page of IEEE-RITA was visualized 16,692 times, and 8,377 papers were downloaded.
