potential mentors. I contacted by current mentor and arranged a meeting. I immediately received suggestions on how to best position myself for my upcoming performance review.”

“It is a pleasure to have made such as strong connection, IEEE has honed a valuable service and whether you are a mentor or mentee, there is a great deal of value in this program.”

Gary C. Hinkle (mentor)

“Helping young engineers develop in their careers is very rewarding. Working with some of these individuals has proven to be quite a challenge, because of the diversity among those seeking mentors. I’m glad to be contributing to this program.”

I have been interviewing mentors and mentees in active mentoring partnerships! We have filmed half of them for the purpose of creating a mentoring product commercial. The mentors interviewed and filmed so far are from Pittsburgh, Ireland and Canada. Our mentees we will be interviewing and filming are from Cairo, Japan, Saudi Arabia. One mentee we interviewed and filmed is in Pittsburgh. This has been a lengthy process in finding members who wanted to participate, agreeable to be filmed and to use their comments on the program. I am also planning to hold an online forum with this group of participants so they can discuss their partnerships, successes, and how they worked through their partnerships – while attendees can send in questions for responses.

We are also working with The Training Connection for an online mentoring orientation program on 22 May 2008 at 7:00am and again at 4:00pm Eastern. A brief announcement will be placed in The Institute Online Alert for early April. We are not ready yet for registration, but will take any questions early for the program.

Thanks you very much for your time. My hope is that by publicizing this IEEE resource more people will use it.
