| Session 6 | CMD/ED | Student Technical Session | Peter Magyar | M&PP Consult – Control and Drives /University of Kentucky | Dr. Peter Magyar and Dr. Joseph Sottile | 10/7/2013 | Salon 8 | 8:30  | 8:35  | Opening          | <b>* Please note afternoon sessions will be held in two rooms - Salon 7 and Salon 8</b>   |  |  |  |
|           |        |                           |              |   |   |           |         | 8:35  | 9:00  | Presentation #1  | <i>A Hybrid Battery Model Capable of Capturing Dynamic Circuit Characteristics and Nonlinear Capacity Effects</i>   |  |  |  |
|           |        |                           |              |   |   |           |         | 9:00  | 9:25  | Presentation #2  | <i>A Design-Oriented Framework to Determine the Parasitic Parameters of High Frequency Magnetics in Switching Power Supplies using Finite-Element Analysis Techniques</i> |  |  |  |
|           |        |                           |              |   |   |           |         | 9:25  | 9:50  | Presentation #3  | <i>Application of smart meters especially for the detection of illegal electricity usage</i>  |  |  |  |
|           |        |                           |              |   |   |           |         | 9:50  | 10:15 | Presentation #4  | <i>Direct Torque Control Of Induction Motor With Constant Switching Frequency</i>   |  |  |  |
|           |        |                           |              |   |   |           |         | 10:15 | 10:40 | Presentation #5  | <i>Reduction of Harmonics in Induction Motor Drive Using Novel Topology</i>   |  |  |  |
|           |        |                           |              |   |   |           |         | 10:40 | 11:05 | Presentation #6  | <i>Procurement of P-f Control Reserves in the Hungarian Electricity System</i>  |  |  |  |
|           |        |                           |              |   |   |           |         | 11:05 | 11:30 | Presentation #18 | <i>Design of a Solar Array Positioning Controller</i>   |  |  |  |
|           |        |                           |              |   |   |           |         | 11:30 | 11:55 | Presentation #19 | <i>Design of a GSM GPS Vehicle Tracking System</i>  |  |  |  |
|           |        |                           |              |   |   |           |         | 11:55 | 12:20 | Presentation #20 | <i>Battery Powered Electronic ballast for Fluorescent lamp with Frequency Control</i>   |  |  |  |
|           |        |                           |              |   |   |           |         | 2:00  | 2:25  | Presentation #7  | <i>A Modified Current Control Scheme of Permanent Magnet Synchronous Motor</i>  |  |  |  |
|           |        |                           |              |   |   |           |         | 2:25  | 2:50  | Presentation #11 | <i>Minimization of Torque Ripples in Direct Torque Controlled Induction Motor Drive Using SVM</i>   |  |  |  |
|           |        |                           |              |   |   |           |         | 2:50  | 3:15  | Presentation #14 | <i>Electrical machines insulation systems, power electronics and the occurring problems</i>   |  |  |  |
