

# VECIMS 2006

## 2006 IEEE International Conference on Virtual Environments, Human-Computer Interfaces and Measurement Systems

La Coruña, Spain, 10-12 July 2006

*Sponsored by the IEEE Instrumentation and Measurement Society*

### General Co-Chairs

Richard J. Duro, Universidade da Coruña,  
Spain  
Mel Siegel, CMU, USA

### Technical Program Chairs

Abdulmoteleb El Saddik, University of Ottawa,  
Canada  
Vincenzo Di Lecce, Politecnico di Bari, Italy

### Local Arrangement Chair

Fernando Lopez Peña, Universidade da  
Coruña, Spain

### Registration Chair

Lee Myers, Myers-Smith Inc, USA

### Steering Committee

David Braudaway, USA  
Robert Myers, IEEE, USA  
Emil M. Petriu, University of Ottawa, Canada  
Mel Siegel, CMU, USA  
Peter Wide, University of Orebro, Sweden

### Symposium Coordinator

Robert Myers, Myers-Smith Inc., USA

VECIMS 2006 is an interdisciplinary symposium that intends to bring a methodical instrumentation and measurement perspective to the theory and practice of virtual and virtualized environments, and human-computer interfaces by focusing on the quantitative and metrological aspect of these technologies and their interactive applications in telerobotics, telemedicine, remote control, engineering design, environment sensing and monitoring, training, education, arts, and computer games.

Papers are solicited on all aspects of virtual environments and human-computer interaction technologies related to measurement systems and the related applications, from the points of view of both theory and practice. This includes but is not limited to multimodal (visual, haptic, audio, etc) virtual environments, sensors and displays, perception and psychophysics, object modeling, model validation, multi-sensor data fusion, soft computing techniques, human-computer interaction, augmented and virtualized reality, virtual reality languages, APIs, RTIs, collaborative distributed virtual environments, model-based telecommunications and telecontrol, calibration, standards, implementation technologies, and applications.

**SUBMIT EXTENDED ABSTRACTS OR DRAFT PAPERS  
BY 10 MARCH 2006**

### Web Site

<http://ewh.ieee.org/soc/im/vecims/>

VECIMS 2006 is held before the 2006 IEEE International Conference on Computational Intelligence for Measurement Systems and Applications (La Coruña, Spain, 10-12 July 2006).

Details for the submission and all information concerning the symposium can be found at the symposium web site at <http://ewh.ieee.org/soc/im/vecims/>. Acceptance/rejection will be emailed by 15 April 2006. The final manuscript is due by 30 May 2006. Submission implies willingness to register at the symposium, pay the registration fee and present the paper. Papers will be included in the proceedings only if at least one author will register and pay the registration fee by 30 May 2006 (member and non-member only are acceptable to this purpose) - no exceptions. If an author covers more than one paper with her/his registration to guarantee inclusion in the proceedings, she/he must pay a 50 US\$ surcharge for each paper in excess of one.
